At the start of the program this year 206 letters were sent to property owners who were due for an inspection in 2022. In addition, 7 WHPA properties are due in 2022 and 99 landowners who are past due on inspections for Cycle 2.

As a follow-up to the reminder letters sent previously, we are calling landowners in an attempt to secure an inspection appointment. Doorknockers will be placed at properties without a current phone number on file – often this method is successful in getting an immediate appointment by a homeowner, especially if tanks are equipped with risers and little or no digging is required.

The remaining WHPA properties who haven't booked an inspection are a current focus, as they require a 5 year inspection cycle rather than the programs eight year cycle.
