Dear Huron Kinloss Council;

The Pine River Watershed Initiative Network (PRWIN), a not-for-profit organization respectfully requests that council provide their annual financial support for our organization. The Township's 2022 contribution was very generous and assisted us with our office expenses and overhead. However, this year we were unable to secure a provincial grant from ECO-Action, where in the past we have been quite successful. We traditionally counted on that provincial funding to support some of our overhead expenses. This year, we did receive a COA/MOE (Canada Ontario Agreement-with Ministry) grant that is specifically allotted to berm reconstruction, reforestation and the associated HR expenses.

In 2022, PRWIN continued to invest in projects within the township. We created two berm structures in Huron Township and planted seedlings at four reforestation sites. We completed reforestation projects that saw over 6,000 seedlings planted. PRWIN directors promoted outings at the McLarty Education Study Area for the Ripley Youth Horticultural Club, Ripley 4-H Conservation Club and Ripley Wolf Cub Camp. PRWIN provided a 4H Conservation Club planting day with their members and assisted the 4H Conservation Club with educational working sessions to restore our surroundings in our community. This spring, we set up personal seedling orders and handed out over 5,000 seedlings. PRWIN volunteered at the Lake Huron Coastal Centre - Boiler Beach Restoration Project. Also, PRWIN attended two webinars hosted by Lake Huron Coastal Centre Webinars for the Boiler Beach Project.

PRWIN hosted a Sponsorship Day to recognize our valuable sponsors in our community. Also, we contributed to our community by hosting a Free Tree Raffle, presented our annual Award of Merit for our community members, supported public skating and participated in the fall fair with an educational video and parade. This month, we will be planting trees with MVCA at one of our group projects.

We are currently contacting our loyal supporters, including the Township and promoting our legacy fund and sponsorship program to new businesses moving to the area.

In order to ensure the future success of PRWIN in 2023 and the sustainability of us in our community we are asking for funding from the Township of Huron Kinloss for the amount of \$8,000.

A handwritten signature in black ink that reads "David Grant".

David Grant, PRWIN Chairperson/Financial Sub-Committee
