

Staff Report

Report Title: 2022 Golf Car Pilot Project Annual Report

Prepared By: Kelly Lush, Deputy Clerk

Department: Legislative Services

Date: Jan. 16, 2023

Report Number: CLK-2023-01-4

File Number: C11 CLK23

Attachments: map of golf car signage

Recommendation:

THAT the Township of Huron-Kinloss Committee of the Whole hereby receives for information Report No. CLK-2023-01-4 prepared by Kelly Lush, Deputy Clerk.

Background:

Ontario Regulation 407/21 Pilot Project – Golf Cars sets out the broad regulatory framework to allow golf carts on roads on Pelee island and in Huron-Kinloss and includes operator and vehicle requirements.

On August 16, 2021, Council approved participation in the Golf Car Pilot and passed By-Law No. 2021-90 being a By-Law to Regulate Golf Car use within the Township of Huron-Kinloss.

Discussion:

Golf car registration officially opened on September 7, 2021. The annual fee to obtain a golf car permit is \$50.00. Once registered each person receives a decal to adhere to their golf car indicating that they are currently registered in the pilot project with a sticker of the current year of registration, the rules and regulations to operate a golf car in the Township, a copy of By-Law 2021-90 and a frequently asked questions brochure. Residents can access all the information on a dedicated page on the [Township webpage](#).

2022 registrations totalled 79 with 61 new registrations and 18 renewal registrations. We anticipate that registrations will increase for 2023 as more residents become aware of the pilot and can register for an entire season.

Registration in the Golf Car Pilot Project is renewable annually and golf cars can be on the roads from April 1 to November 30 each year.

In 2022 we received several comments regarding the project questioning insurance for golf cars, enforcement, and regulations and requirements to operate the cars within the Township. Questions also came in from other communities inquiring on how to become a part of the pilot project.

As part of the pilot project the Township must provide golf car signage. To date, signage has been installed along the Lakeshore and will be installed throughout the rest of the Township once approved by the County. The attached map indicates where all of the signage will be placed throughout the Township.

The Ministry of Transportation (MTO) requires data from the municipality to evaluate and determine any potential amendments that may be required to the project. The Township of Huron-Kinloss is required to provide any information annually by March 1 of each year of the pilot to the Ministry. The report on the pilot project will be submitted prior to March 1, 2023 and will include the number of registrations and any comments and feedback we received about the project.

Renewal letters regarding registering for the 2023 Golf Car pilot project will go out in February. Ongoing communications regarding the project will continue throughout the year using various channels including the Township website, social media posts, direct mail-outs and electronic newsletters. The South Bruce O.P.P also provide education to the public on safety and regulations for operating a golf car under the Highway Traffic Act.

Financial Impacts:

There are no financial impacts with this report

Strategic Alignment / Link:

We are an accessible community that offers opportunities for everyone by being accessible for those with disabilities.
