Hello councilors. I live at 926 Tanglewood Drive Point Clark and I have concerns about the way my laneway was reinstalled after Tanglewood was resurfaced. I now have a car that scraps on the newly installed road upon entry and exiting my laneway which is causing damage to my property. I did have a conversation with the BM Ross Engineer, he took video of the car making contact with the pavement. This was not an issue before the replacement of the road. I would like this to be corrected before I damage any of my vehicles. Any questions please feel free to contact me at [REDACTED] or 5 [REDACTED]
