Re: Township request list for 2025 Dungannon Super Pull

Dear Huron Kinloss Councilors

I am writing on behalf of the Lucknow Kinsmen club regarding our township request list for the 2025 Dungannon Super Pull at Graceland. Our 2024 event was very successful, we were able to run more efficiently thanks to layout optimization and the convenience of permanent hydro and lighting.

Our event would not be possible without the continuing support from the Townships and community; we are very proud to have such a strong partnership, we appreciate your support.

Please consider our request listed below which are similar to the support provided by Huron Kinloss in 2024.

- **Parking:**
 - We anticipate higher campsite sales and want to limit traffic disturbance in town. We request to park cars at the Lucknow Soccer fields parking lot. Adding offsite parking should reduce event traffic on Highway 86 and minimize the impact on regular traffic.
- **Municipal & Permit Fees**
 - We request to have any municipal fees waved, including building permit fees, tipping fees at the landfill and any other permit fees required to run our event.
- **Waste removal Trucks**
 - We request to have 4 dump trucks for waste removal. We would require the trucks to be parked at Graceland on Friday June 13, 2025 at a time that was convenient for your operators.
 - We need 1-2 trucks emptied and returned on Saturday June 14, 2025. We also ask to have 4 drivers on Sunday June 15, 2025 to drive the trucks to the landfill empty the truck & drive back to Graceland during clean up, possibly for multiple trips until all the waste is cleaned up.
 - Clean up starts at 9:00 am, trucks would need emptied starting at 10:00 am
- **Fire Protection**
 - We request fire protection for our event similar to 2024.
 - On Friday June 13th we would like the use of the rescue truck to lead our parade.

- We require 4 firefighters with a pumper truck on standby for the demolition derby Friday June 13th from 7:00 pm – Finish (9:30 pm)
- Road & trail maintenance
 - We would like to reduce the amount of gravel road dust for our neighbors and event spectators. We request that all the gravel roads be graded and have calcium applied before June 10, 2025. Gravel roads including Washington St, Walter St gravel extension into Graceland between the pull tracks continuing to Washington St gate and the small gravel staging areas at both end of the pull tracks.
 - While the grader is on site we request the walking trail around north camping be graded. This track is made of stone dust and should be easy to smooth up.
 - We ask to have any potholes cold patched on Walter St before June 13, 2024
- Roadblock barricades
 - We ask to have 4 sets of roadblock barricades and if possible 4 signs that say “Road Closed Local Traffic Only” if the signs are available from Public Works inventory.

The entire Kinsmen club and I appreciate your continuing support, this year and past years. I’m glad we can work together and have successful events that help our community and makes Huron Kinloss and surrounding area a better place to live. Please feel free to contact me directly with any questions.

Shaun Scott, Co-Chair Dungannon Super Pull
