

## Justification for selecting subject site

1st Priority: Our transportation consists mainly of horses, which is not ideal in towns, also we want our scholars to be able to walk to school where possible. There is also no hamlet in the area the school is needed.

2nd Priority: No institutional property available within walking or horse travelling distance.

3rd Priority: We do not have access to any "Rural" property in the area that this school is needed.

4th Priority: This farm is central so more children can walk, and also this parcel of land is of lower production land.
