Mayor and Members of Council
Municipality of Huron Kinloss

Dear Mayor Twolan and Members of Council

The Huron Shores Lions Club is seeking approval to proceed with an annual and perennial flower bed at the Lions Park in Point Clair. This would be an attractive addition to the park and would require the approval of the Municipality. We will be applying for a grant to assist with the costs. The Huron Shores Lions Club

- Would create a raised flower/garden bed at the Lions Park. The bed would be 4 feet wide by 16 feet long, by 1.5 to 2 feet high.
- The bed would be built of pressure treated landscape timbers to create an environment suitable for perennials and annuals.
- We would add mulch to reduce the on-going maintenance.
- The Club's initial commitment would be to construct the bed. Over time to add or replace plants as needed.
- We would also commit to watering and weeding as needed.

The Municipality is being asked to

- Provide an outside tap for watering,
- To pick up and remove any bags of pulled weeds
- To provide some mulch from time to time.
