The United Nation's 17 Sustainable Development Goals (SDGs) are an urgent call for action by all countries – developed and developing – in a global partnership. Many of the goals focus on social aspects of sustainable development.

During the Conference, participants will focus on the social aspects of sustainability and discuss:

- What sustainable communities mean to us
- The community as a dynamic system – what does your organization do to contribute?
- What have we learned from the past 2 ½ years?
- How do we move forward?
