Some concerns about the proposed trailer bylaw.

1. I have a boat my kids come up for a week with their boat/sea doo Why can't they park on my property if I have room? Its only there for a short time during summer months.
 2. There is a family who have vacant land about once a year they have a family get together where there are several rvs parked for a week or two then they leave. They spend money in the community. Yet with this new revision this would no longer be allowed. Why?
 3. what is the concern about parking trailers when I see up to 8 cars and trucks crammed into a small cottage lots and parking on weeping beds.
- Do not understand the rationale for this by law.
Ps I will be attending tonights meeting.

Regards Pauline Allen.
