Consultation Process

- The Township of Huron-Kinloss follows the Canadian Radiocommunications Information and Notification Service (CRINS) protocol.
- It is anticipated this proposal will proceed under the “low” degree of visual impact
- Requirements:
 - A notification mailout will be sent to property owners within a 120m metre radius of the proposed site.
 - The consultation period runs for 30 days where members of the public can submit comments.

Summary and Next Steps

- Proposed site implements significant wireless network improvements for the local community through improved Mobile LTE Network Coverage/Capacity
- Bell Mobility will provide the Township with a completed submission package at the time of the CRINS submission
- After approval is received through the CRINS process, lease to be finalized with the Township

Thank you.
